

REMARKS

In the above referenced Office Action, the Examiner requested a copy of "Thormann et al. (1981) Analytical Isotachophoresis 33-39" which was cited in the Information Disclosure Statement dated December 10, 2001, but was not found in the application.

The closest match to that citation that Attorney for Applicants could find is the attached article.

Respectfully submitted,

Stephen C. Macevicz
Reg. No. 30,285
Attorney for Applicants
